

Stick to this timeline and you should be OK. NOTES are what will be taught. HW is what you should be finishing up or have finished on that day.

This timeline is dynamic, so it will change based on where we're at and what we're doing, but it should serve as a good baseline for the class.

If you are going to be gone for any period of time, I suggest doing Chapter 7 early.

Use any OFF days to complete missing homework or study for tests. These are OFF days for class but should be used as catch up days for your work.
